Comment: I have lived in North County (Ferguson, Mo - you may have heard of us?) for 2/3 of my life. I am sick and tired of this contamination issue getting kicked down the road with no solution while my friends, neighbors and my family are exposed to the life threatening issues posed by the failure to clean this up. Cost simply cannot be a part of the consideration when we are talking about human life. We don't want part of this cleaned up. A home owner can't mitigate part of a lead paint issue. We want all of it gone. Everything that can be feasibly removed should be done now; should have been done already. Shame of the EPA for pushing this aside for so long. Time is up.
